

I am opposed to this bill on the basis that abortion is murder and the erasing of laws that protect the innocence of young children is downright diabolical. Anyone with children who does not see the sickness and depravity of this shouldn't be allowed to be a parent. How would you like your little Johnny or Susie to be raped and then have the monster who did it get away with it? Also, Abortion is not a reproductive right! The only right an unborn child has is the right to be born!
