

HB 1171 – Unfavorable and Detrimental to Human Rights

I oppose Maryland HB 1171 as it has nothing to do with “Reproductive Liberty” or “Human Rights”. This bill seeks to “protect” the right of any person, any age, to commit murder. It is never the right of anyone to kill a person, born or unborn, regardless of the circumstances. What about the right of the unborn child or the rights of those being pressured into killing their children? These are the rights the General Assembly should be concerned with.
