

HB1171

As you are considering this bill, I ask that you please do not pass this bill as it is morally wrong. You cannot allow rapists to harm children and get away with it. Please do not pass this bill as under aged children do not have the mental capacity or understanding to consent to sex with adults. This bill is very harmful, immoral, and plain wrong if passed. If passed, this bill will cause an extreme amount of harm to people mentally and physically and endangers the wellbeing of children as they are still in the developmental stages.

Thank you for your attention in this matter.

Jerardo Reyes
