

I find this bill unfavorable because it will allow minors to seek transgender surgery, sterilization, and abortions without the consent of an adult or parents, funded by the tax dollars of Maryland. It also does away with age of consent laws and rape laws. This in turn will leave people unable to sue an adult for having intercourse with minors and prepubescent minors. In addition to this, it will enable anyone, minors and adults, from anywhere in the U.S. to receive abortions in Maryland. Child molesters could use this as opportunity to seek abortions for their victims and continue their terrible deeds. This is an outrageous bill for the horrible consequences that could ensue, and for the fact that abortion is the murder of the most innocent, defenseless life there is. Most of all, this is an offense to God, as it promotes some of the most horrible vices there are. Thank you.
