

I am against HB1171 because I believe we should have statutory rape laws and age of consent laws in all of the United States of America. It is not right for adults to have relations with people under the age of 18 and if they choose to do so they should face the consequences. I also believe minors should not have certain rights to act on their own without their parents' or guardians' knowledge.

Another thing wrong with this bill is that there is no distinction in age for stated rights, why is this written in this manner?

I also believe tax payers should not have to pay for abortions if they are against abortions.

I believe everything about this bill is wrong and it should be thrown out without a question, that is why I am writing to you today. Thank you for your time and may God have mercy on us all.
