

Dear Legislators,

We don't trade essential liberty for temporary safety! This principle must be understood and enforced by all government officials or they will enslave the very people they are supposed to protect and serve.

All the recent covid policies failed, taking away peoples' rights. Let's admit our mistakes and learn from them. Let's not move forward down the same path. The people already distrust the government more than ever. Do you think they are asking you for more restrictions? Do you think they are asking for a system that can tell them where they can go and what they can do? Do you think they want to have to carry "papers please" or a mobile phone in order to get access to goods and services? Who is asking for this vaccine passport? It's not the citizens. It seems more in alignment with the World Economic Forum's Great Reset plan and the big players exploiting the COVID crisis.

The revolt is all around you. Can you not see it? Can you not see the people rising up and saying we're not going to take it anymore?

The vaccine mandates are being forced upon us to give vaccine passport systems a purpose. There is no need for a vaccine passport system without vaccine mandates. Vaccine passport systems are nothing more than digital human control systems. The US government has already asked Mitre corporation to build a vaccine passport system.

Since these systems take away freedom, the government needs some type of big scare (like a pandemic) to justify them.

Vaccine passport systems are simply another type of social credit score system in disguise (like the one China deployed).

This is all

part of the globalist World Economic Forum's Great Reset plan, which defines the next version of how humans will live

(A New World Order, the next version of human slavery). If you want to keep your freedom, it is up to all of us to

speak out NOW against vaccine mandates and vaccine passports. Once vaccine passports are instituted, they will gradually

be adapted to enforce other mandates in society. There will be no way to stop it.

Imagine having to own and carry a

mobile phone in public, having a digital tattoo or microchip in your skin so that you can show your vaccine passport

and get permission to do things! That's where we are heading unless we all do something to stop it. This is already

being implemented throughout other test countries. Mass protests and revolts are occurring (but the mainstream media isn't showing that).

In order to sneak vaccine passports into public acceptance, we will call them "voluntary" to make them sound harmless. But this is just a trick because to take away peoples freedom. You need to build the core infrastructure behind the peoples back without them knowing it. Otherwise, they would never accept it. That's what

this bill will do. It will open the authoritarian doors wider. It will start the process. It will begin building the infrastructure. It will train the brainwashed people to comply because they don't know any better and blindly trust their government. It's your job to protect the people from these con games.

Besides the above, I also strongly believe in the principles below.

Forcing or coercing someone in any way to take a vaccine or any medication violates the Nuremberg Code established in 1947 after the terrible acts that took place by the Nazi regime. The first of its ten points begins as follows:

“The voluntary consent of the human subject is absolutely essential. This means that the person involved should have legal capacity to give consent; should be so situated as to be able to exercise free power of choice, without the intervention of any element of force, fraud, deceit, duress, overreaching, or other ulterior form of constraint or coercion; and should have sufficient knowledge and comprehension of the elements of the subject matter involved as to enable him to make an understanding and enlightened decision.”

This code of ethics must be upheld in any civilized country. The COVID-19 vaccines were not tested for long-term effects and thus were and are experimental. Each person should choose whether to take the vaccine or not. Future vaccines may have similar experimental natures or may be carefully tested. Regardless, each person must have the right to accept or refuse the vaccine without any coercion, or penalty.

Medical or religious discrimination: People decline COVID-19 vaccines for medical reasons or sincerely held ethical, moral, or religious beliefs. The valued and valuable ethical and legal traditions of the United States and Maryland are clear that it not acceptable to discriminate on the basis of medical condition/disability or on the basis of religion/religious belief.

Weakening of medical privacy: Doctor/medical practitioner-patient confidentiality is legally protected and essential for a myriad of reasons, and the privacy & protection of medical records is also important. The COVID-19 passports and other COVID requirements erode or remove these legal protections.

Future implications: COVID passports set the groundwork for a two-tiered society, in which persons who have received vaccinations may live normal lives (including work, schooling, right to assembly, and access to various services) and persons who have not received vaccinations are denied those rights. Do we want to live in such a society? Recall history, our worst moments and our greatest achievements! Does it not always go badly when one group is dehumanized and denied rights based on a physical or religious characteristic? Are we not proudest of those movements which restore those rights?

Right to bodily integrity: Everyone has the right to bodily integrity, which includes the right to decline medical interventions. There is some serious philosophical inconsistency among the legislation under consideration this session. Bills to expand access to abortion and to enshrine abortion in Maryland law are

under debate, underpinned by a 'my body, my choice' argument. Persons who wish to decline COVID vaccines are not being offered the same respect for 'my body, my choice'! You can't have it both ways! (The correct way of looking at this is: A woman has the right to bodily integrity and autonomy over her own body. The developing baby in her womb is someone else's body. Everyone has the right to maintain bodily integrity by declining medical interventions to which they do not give informed consent apart from coercion.)

Potential for Misuse of the MyIR Mobile app: Like any app, this one is subject to technological failure and hacking. Let's use caution before mandating it. Additionally, while it is currently being used and proposed to track vaccination records, its use could easily be expanded to illegal and unjust overreaching surveillance of American citizens by the government and the development of a Communist-style social credit system. Please review the work of Reggie Littlejohn to learn more about this.

Sincerely,

Dean Harding
