

I am writing in opposition of HB1171. This Bill is atrocious! It is opening doors to Pedophilia, and forced abortions following rape. I have a family member who was raped, and taken for an abortion. Double the trauma!!

I also have a good friend who was raped, and kept her baby. Years later her husband forced her to abort their child, she still cries over that abortion, but the baby conceived in rape, gave her the only good thing from a horrendous situation.

As a woman, I want you to know, you are not helping women at all with this bill, you are causing more damage then you can imagine!
