

Bill HB0626

Pregnant Person's Freedom Act of 2022

I am shocked and amazed that any human being at all much less a government made up of human beings would consider this bill. This bill is an atrocity; it has no place in the law of humanity. The fact that it is even being considered is a disgusting show of morality in this state and in this nation.

This bill goes beyond any human understanding; would you kill your own child if you had one? The fact that the creator/s of this bill is/are alive and even presenting this bill shows the insanity and inhumanity of those who would propose and/or accept this bill. You cannot allow this to pass into law.
