

I oppose this bill because it is murder. We are now attempting to legalize infanticide? Who can look at a child and consider a parent has the law on their side to commit murder within 28 days of birth? Children are to be protected & cherished not discarded like a piece of worthless trash.

This disregard for life has in fact given us a nation where life is often cheap. If we do not care for our children, how can we care for each other? As Mother Teresa once said the "Fruit of abortion is nuclear war." Does that not ring true today? Let us treat life with sacred respect, starting with ourselves (Maryland) and spread this respect worldwide.
