

HB0952

OPPOSE

Deborah Brocato
3206 Gloucester Dr
Fallston, MD 21047

Dear Delegates,

The State of Maryland should not require insurance plans cover the deliberate killing of unborn people.

This bill, like HB0937, requires all insurance plans to fund the killing of unborn people.

By virtue of the fact that Marylanders are required to have health insurance, the bill forces all citizens of the state of Maryland to pay for the killing of unborn people.

I urge each of you to recognize the value of the human person and their Constitutional right to life and reject this bill.
