

I strongly oppose the abortion amendment bill 1171 . Allowing to build a path will be dangerous to women and it takes away the right to life for the unborn. Passing this legislation would be detrimental to Maryland as it will cause a lot of division within the state. Based on statistics 71% or the majority of the population is for restrictions on abortion and do not support abortion at the full term. The unborn just like all citizens deserve the right to life and liberty.
