

Health and Government Operations Committee - HB1321 - UNFAVORABLE

Chair Pendergrass, Vice Chair Pena-Melnyk, and the Health and Government Operations Committee;

HB1321 would put additional requirements on clinic personnel, who anti-choicers have already forced to:

Park far from the clinic since anti-choicers take photos of them, their cars, and their license plates so as to dox them;

Put numerous cameras around the building, so as to record the violence of anti-choicers;

Employ multiple security guards to protect the patients, employees, and building;

Install numerous security features on the doors due to anti-choicers trying to get in; and

Ask for volunteers to escort patients past anti-choicers who yell at them, shove things in their faces, sometimes threaten them, sometimes become physical with them, and sometimes take photos of them in order to dox them.

I'm so sick and tired of forced-birthers and their fake concern for the "unborn" or "preborn" or whatever they're calling embryos and fetuses now.

I urge you to give HB1321 an Unfavorable Report.

Thanks for your consideration of this matter.

Sincerely,
Debi Jasen
Pasadena, MD
