

Dear Chair and House Health and Government Affairs Committee Members,

Please support HB 1292, prohibiting a county board of education, public school, or child care provider from adopting a certain immunization policy that prohibits certain children from participating in certain activities or discriminates against certain children for having a certain exemption from certain immunization requirements. More than 1000 side effects caused by the COVID-19 vaccine have been reported by FDA. So vaccines not approved by long term side effect should not be required. Additionally people have their own medical and religious concerns to choose if get vaccinate or not. And those people should not be discriminated based on equal protection by constitution.

Therefore, I am favorable to the bill HB 1292.

Please support this bill.

Respectfully,

Wei Yan

Maryland resident
