

House Bill 0626 and Senate Bill 0669
The Pregnant Persons (gag me) Freedom Act of 2022

Delegates and Senators,

I am writing to you as a resident of the state of Maryland, a mother, and a devout Catholic woman. I am so appalled and horribly disgusted not only by the name of this bill, but the intent to exonerate doctors and assistants in culpability in **INFANTICIDE! I Highly oppose this bill!!**

With deceptive legalese ie: the deceptive use of the word “perinatal” medical definition: The perinatal period starts at the 20th to 28th week of gestation and ends **1 to 4 weeks after birth.** The Maryland Code does not have a clear definition of the word perinatal in the bill. This bill is written with the **intent to murder a child** “person” defined as a human being according to ruling 46 Conn. Sup 63 1999 (Connecticut Assembly) “Born Alive” rule states that an infant is a person (human being) and under the murder statutes the defendant could be charged with murder!!! It’s bad enough most of you are pro abortion, but this is taking it too far. You all must be stopped.

We will be watching how the Delegates vote on this issue and are completely shocked that 48 of our Maryland Delegates and Senators sponsored this heinous and satanic bill. Each one of you whether you believe it or not will be judged by the one and only GOD!!
