

Dear Chair and House Health and Government Affairs Committee Members,

Please support HB 1291, prohibiting a State or local entity from requiring any additional immunizations for a child entering school other than the immunizations required by the Maryland Department of Health. Many side effects caused by the COVID-19 vaccine have been reported by FDA. So vaccines not approved by long term side effect should not be required.

Therefore, I am favorable to the bill HB 1291.

Please support this bill.

Respectfully,

Wei Yan

Maryland resident
