

We are against SB0669 and HB0626. These 2 bills will PERMIT A DOCTOR TO ABORT (KILL) A BABY 28 DAYS AFTER IT IS BORN!! IT ALSO EXONERATES THE DOCTOR FROM ANY WRONGDOING (MURDER). Murder is wrong, wrong, wrong! Think of your eternal soul. Don't do this! Stop it! We beg of you!!! This IS infanticide. This bill is about perinatal death as in 'failure to act once a baby is born alive' in other words allowing the baby to STARVE or FREEZE to DEATH and those who allow this (that INCLUDES YOU if you permit this) are committing MURDER!!! It even allows for the people involved in the murder to sue the police if they are arrested! Really?! This is MURDER!!! MURDER! Got it! This prevents any investigation into the death of the infant for 7 days after the birth. You are really that evil? Really? Wow! Straighten up! What is WRONG WITH YOU?!?!?!?!?!?

We know the difference between perinatal and prenatal. Don't use your double speak on us.

There is NO reason for this. There is a safe haven law in place in Maryland.

Sincerely,

Rosemarie Colón
