

I support this bill for the following reasons.

- It is discriminatory against black and brown individuals to allow a county board of education, public school, or child care provider from adopting a certain immunization policy that prohibits certain children from participating in certain activities or discriminates against certain children for having a certain exemption from certain immunization requirements.
- A study of 10 million finds no evidence of asymptomatic spread

Please listen to our concerns and protect our freedoms. Scientific evidence shows the vaccines should not be required for all individuals in order to attend school or childcare.
