

March 8, 2022

BILL:	SB0783
TITLE:	Constitutional Amendment - Environmental Rights
POSITION:	SUPPORT
HEARING DATE:	March 9, 2022
COMMITTEE:	Judicial Proceedings Committee
SPONSOR:	Senator William Smith

The amendment would ensure that (1) each person, as a matter of human dignity, has a fundamental and inalienable right to a healthful and sustainable environment; and (2) the state, as the trustee of Maryland's natural resources, including its air, water, lands, wildlife, and ecosystems, shall preserve them for the benefit of current and future generations.

The state of Maryland recognized that "each person has the fundamental and inalienable right to a healthful environment," when it passed the Maryland Environmental Policy Act of 1973. Unfortunately, the Act has not been sufficiently effective.

By elevating the right to a healthful environment to the same level as such fundamental rights as freedoms of the press, religion, and speech, the Amendment will provide constitutionally based protections in addition to those set forth in existing environmental laws and regulations. The Amendment also makes explicit the State's trustee role as a steward of our environment and the constitutional obligation to protect this right.

These principles will strengthen the basis for addressing the cumulative effects of legacy pollution that disproportionately impact many of our minority and low-income communities and will steer Maryland toward true sustainability. They will provide a solid foundation for improved laws, regulations and programs at all levels of government, and the additional scrutiny that comes from constitutional provisions will serve as a guardrail against the most egregious forms of harmful action, protecting all Marylanders, now and in future generations.

We ask that you support and pass the proposed Maryland Constitutional Amendment for Environmental Human Rights in 2022. Our communities, especially those that are marginalized, our children, our grandchildren, and future generations need us to act now.

For these reasons and more, Climate XChange urges a FAVORABLE REPORT on SB0783.

Respectfully submitted,

Wandra Ashley-Williams
