

Please give Senate Bill 129 a FAVORABLE vote.

Everyone in the United States should have access to a lawyer in a legal proceeding. This is covered by the 6th amendment to the Constitution of the United States. It has repeatedly been determined that aspects of the Constitution, including the 6th amendment, include non-citizens. In Maryland, we're required to be in compliance with the Constitution. As patriotic Americans, we should additionally seek fairness and justice in our country. We cannot accomplish these things without people having effective counsel. Again, please give Senate Bill 129 a Favorable vote.

Thank you for your consideration.

Sincerely,
Debi Jasen
