

**Senate Judicial Proceedings Committee
SB 559 – Supported Decision-Making
February 17, 2022
Position: Support**

- Supported decision-making is something used every day by all citizens. It is the essence of the self-direction option under the Developmental Disabilities Administration waivers.
- This law would help formalize supported decision-making agreements, to ensure that people accept it and that there are clear guidelines and protections in making these agreements.

Please make a favorable report.
