

SB0773

Jesse Picard

Position: **Opposed**

This bill seeks to impose extreme and costly measures on law-abiding gun dealers. Many dealers have hundreds if not thousands of firearms on display in their inventory at any given time. In addition to the cost of the "vaults" required to store hundreds or thousands of firearms, standards for which are not defined in the bill, the cost of man hours required to store that many firearms in vaults at the end of each business day and then distribute them back on display to open the following business day would be extreme.

I urge an unfavorable report on this bill.

Sincerely,

Jesse Picard
