

Good Morning,

I am a legal law abiding Gun owner, holder of a collectors license, and concealed carry permit in this great state. As a law abiding concerned citizen I need to OPPOSE this bill as written.

I understand the idea of making our great state of Maryland safe as possible is very important, but this bill as written hurts law abiding citizens. Criminals do NOT care about laws, that's why they are considered criminals.

As written, this bill criminalizes hobbyists, it does not remove illegal guns from streets.

I believe the largest flaws with this bill are in Not allowing citizens to build firearms for personal use (as seen in current Federal bill), and the New definition of what is considered a fire
