

Please **OPPOSE** HB1021
Public Safety – Licensed Firearms Dealers – Security Requirements

Even after the Baltimore riots when all the the drug stores were criminally emptied of their dangerous prescriptions, there was no call for such "Fort Knox" style security with the punishment going to the store owner rather than the criminal breaking into the store! Are medical cannabis dispensaries currently treated this way? This bill is just plain wrong on so many levels. There really has to be some limit to the stigmatizing of honest citizens and perfectly legitimate businesses; they are NOT the bad guys. Driving businesses out of business will not solve whatever problem this bill purports to solve.
