

Reference the proposed Maryland redistricting map

The proposed redistricting map favor Democrats. I'm tired of the continual Gerrymandering and would like the fair map created by the Maryland Citizens Redistricting Commission. This was a multi-partisan commission formed by Gov. Lawrence J. Hogan Jr. (R.) The map received an overall "A" rating from the Princeton Gerrymandering Project. That map would create a 6-2 partisan breakdown, with the 6th District and the 1st District favoring Republicans. Analysts at Princeton evaluated the map based on competitiveness, partisan fairness and geographic features.
