

## **Latest Redistricting Map after Court Rejection-UNFAVORABLE**

I am opposed to the map that was submitted today. I don't like that it divides Montgomery County into 3 or more Congressional Districts. It wasn't easy to figure out how the county was divided, but when you split up the county so much, it isn't in the best interest of our county or the Congressional members who serve the county.

I had reviewed the map submitted by Governor Hogan's redistricting commission which was bipartisan and I request that the Legislative body approve that map instead. That map divided Montgomery County into only two districts which makes better sense.

I am bewildered that not one Democrat that I know of opposed the gerrymandered map that the Democrats voted to pass. This was clearly not in the best interest of Marylanders and was expressly choreographed to further eliminate conservative voices.

The only way to gain back my trust in the system is for the legislative body to adopt the Citizens Redistricting Commission's map. Thank you for this opportunity to comment.
