RE: Senate Bill 325-Student Data Privacy – Protections, Digital Tools, and Student Data Privacy Council
Position: Support with Amendment

Dear Madam Chair:

Frostburg State University respectfully requests an amendment to the definition of “operator” in Senate Bill 325, to exempt the providers of nationally recognized high school exams that are used for college entrance or placement, college credit, or scholarship opportunities.

If not amended, Senate Bill 325 will significantly limit a student’s ability to access critical programming and information from institutions of higher education that will help them earn a degree, particularly historically underrepresented student populations who are already disproportionately less likely to apply, enroll, and graduate from college.

When students take the SAT, they can opt-in to Student Search Service which connects thousands of colleges and scholarships with more than 5 million students. Students contacted by colleges through Student Search are, on average, 23% more likely to apply to a 4-year college; 25% more likely to enroll in a 4-year college; and 31% more likely to graduate on time from a 4-year college. We specifically use this program to encourage students to consider our institution for their college experience.

These gains are even greater for under-represented populations. For example, Black students are 25% more likely to enroll in a 4-year college and 40% more likely to complete their college degree when they receive outreach through Search programs.

Amending the definition of operator will ensure that students who choose to, can opt in to share their data and receive information from higher education institutions like ours, as well as information about scholarship opportunities. Protecting students’ data remains one of our top priorities, and we want to make sure students have access to all the opportunities available to them while protecting their privacy. Programs like Student Search Service allow families the choice to sign up and opt out at any time. We are required to adhere to strict guidelines to ensure student data remains private and used only for educational purposes.

We believe all students deserve the same opportunity to access information that can support their transition to college. This amendment will continue providing students with opportunities to they may not otherwise receive without it. Thank you for your consideration.

Sincerely,

A handwritten signature in black ink that reads 'Natalie Wagoner'.
