
MARYLAND ACADEMY OF NUTRITION AND DIETETICS

Date: January 27, 2022

Bill: House Bill 154 - Public Schools - Anaphylactic Food Allergies - Guidelines and Requirements

Committee: House Ways and Means Committee
The Honorable Vanessa E. Atterbeary, Chair

Position: Support

The Maryland Academy of Nutrition and Dietetics (MAND) represents nearly 1200 Registered & Licensed Dietitian/Nutritionists in the state who work in a variety of facilities and agencies to provide education related to nutrition for the benefit of the health our citizens. We would like to support **HB154: Public Schools - Anaphylactic Food Allergies - Guidelines and Requirements**

Anaphylaxis is a severe allergic reaction that is rapid in onset and may cause death. Since it is unpredictable and potentially fatal, prompt recognition and treatment are vital to maximize a positive outcome. The occurrence of anaphylaxis is increasing across all ages in the United States, with increased risk of worse outcome in teenagers/young adults and in those with comorbid conditions such as asthma.

Gaps in the assessment of patient-specific risk factors, identification and prevention of triggers, recognition of signs/symptoms, and pharmacologic treatment of anaphylaxis have been identified at the physician and caregiver/patient level. This is a well written bill that covers so many issues related to this serious problem for students who experience anaphylaxis in school.

We urge you to **support HB154** bill for the good of the thousands of students that are affected by Anaphylactic Food Allergies.

Thank you for your consideration,

Susan O'Malley, MS, RD, LDN
MAND State Policy Representative

Teresa L. Turner, MS, RD, LDN, SNS, FAND
MAND President & School Nutrition Specialist
