Bill: HB 1258 – Primary and Secondary Education – Educational Options - Established
Position: Unfavorable
Date: March 10, 2022
Committee: House Ways and Means Committee
Contact: Mary Pat Fannon, Executive Director

This bill establishes the Broadening Options and Opportunities for Students Today Program to provide certain students with scholarships for students who are eligible for the free and reduced price lunch program to attend a nonpublic school; establishing the Maryland Public Charter School Authority as a public chartering authority under the Maryland Public Charter School Program with certain powers and responsibilities; allowing a parent or guardian a credit against the State income tax for certain home instruction expenses.

The Public School Superintendents' Association of Maryland (PSSAM), representing all twenty-four local school superintendents, **opposes HB 1258.**

This bill's purpose is to create a permanent funding stream to finance private and parochial school students at the expense of public-school students. This diversion of state revenue to finance private school student expenses, including tuition, constitutes a voucher-like program long opposed by PSSAM and public education advocates in Maryland.

Unlike nonpublic and private schools, with the exception of nonpublic special education schools, Maryland public schools are held strictly accountable by local, State, and federal laws and regulations such as teacher education and certification, academic standards, and anti-discrimination laws. Local superintendents fully recognize that strong accountability measures for Maryland's 900,000 public school students translates into strong accountability for public dollars invested in education. In addition, it is important to note that public schools provide effective educational programs for all students, including special education, English language learners, early childhood, and rigorous high school programs that are not always available in parochial and private schools.

PSSAM strongly opposes the establishment of a permanent funding stream that would ultimately finance private schools. The financial needs of our public-school students must take priority over those who choose a private or parochial education. PSSAM also opposes the proposed changes in the bill to the Public Charter School law as we believe the current statute and regulations are working well in Maryland.

For the reasons stated above, PSSAM **OPPOSES HB 1258** and requests an **unfavorable** committee report.

One Voice, One Vision for Maryland's Students
