**Testimony by Dr. Brad Phillips, Executive Director**

**February 7, 2023**

**HB 390 - Community College Tuition and Residency Waivers - Funding**

**POSITION: Support**

---

On behalf of the Maryland Association of Community Colleges (MACC), representing Maryland's 16 community colleges, we offer our support for this legislation and thank Delegate Feldmark for her sponsorship.

This legislation provides an annual \$10 M appropriation to reimburse Maryland's community college for state-mandated tuition and residency waivers. Tuition waivers at our community colleges have gradually increased over the past decade. In academic year 2020-2021, approximately 10,000 students were provided a waiver at a Maryland community college.

The statutory mandated waivers go to extremely needy populations such as; foster care students, unaccompanied homeless youth, students with disabilities, and senior citizens. Helping this population of students is critical to Maryland yet waiving their cost of attendance is not a sustainable policy to provide the types of support services these populations need and deserve.

The current tuition waiver policies force the colleges and students to absorb the educational expenses, which is a model that is contradictory to goal of providing access to these students. With this legislation, we can support these students, with additional services such as interpreters, tutors, and counseling that can supplement their academic goals.

In addition, individuals from the following groups are eligible for in-county or in-state tuition waivers:

- Dually Enrolled Students
- USA Armed Forces or National Guard and their families
- Public school teachers taking a required course
- Children of State or local public safety employees killed in the line of duty, and
- Students enroll in health workforce shortage areas and nursing students may qualify for reimbursement of out-of-county fees

I'm not suggesting that we repeal these waivers, but I am asking that we begin to create sustainable public policy for Maryland's community colleges by creating a \$10 M annual appropriation to reimburse the institutions who are serving these populations of our students.

MACC requests a favorable report on House Bill 1102.
