Maryland Legal Services Corporation respectfully requests an amendment to HB 556 to direct a portion of cannabis sales and use tax revenue to the MLSC Fund. The MLSC Fund was created by the General Assembly to fund important civil legal services, and directing revenue in this manner would play an important role in helping the General Assembly reach its social equity goals.

MLSC’s mission is to ensure low-income Marylanders have access to stable, efficient and effective civil legal assistance through the distribution of funds to nonprofit legal services organizations. It currently funds 41 organizations to work toward that mission across the entire state. The Maryland General Assembly created MLSC in 1982 to administer the state’s Interest on Lawyer Trust Accounts program, and since that time MLSC grantees have assisted approximately 4 million Marylanders with a wide variety of civil legal needs.

MLSC’s grantees serve the very communities most impacted by cannabis prohibition and seek to address a range of legal issues that have resulted from cannabis enforcement and community disinvestment, such as criminal record expungement, unstable housing, debt problems, barriers to employment and more. Like cannabis enforcement, civil legal issues tend to disproportionately impact communities of color. In fiscal year 2022, more than 75% of grantees’ clients were people of color.

At the same time, our nonprofit grantees have had difficulty recruiting and retaining staff in light of the current tight labor market. Nonprofits have traditionally offered lower salaries than their for-profit and government counterparts, and that gap has recently grown. MLSC has long invested in the operations of our grantees, helping them keep the lights on and keep the lights of justice burning. We recognize that the staff is the heartbeat of civil legal aid, and that client communities are best served by well-staffed, well-trained, stable organizations. In fact, thanks to strong IOLTA revenue, we have just made supplemental grants targeted at bringing grantee salaries closer to that of other publicly funded, public interest attorneys in Maryland.

However, IOLTA revenue is based on interest rates and will not remain at its current level forever. While rates are projected to be high for another year or two, an additional, stable funding source will be needed to maintain that funding when rates begin to fall. The timing of the implementation of the cannabis sales and use tax offers an opportunity to continue that investment in civil legal aid. By directing a portion of the tax revenue to the existing MLSC Fund, the General Assembly will help nonprofit legal services providers recruit and retain their staff, thereby helping thousands of Marylanders every year address their economic security, family stability and physical safety.

MLSC is grateful for the tremendous amount of thoughtful work that went into developing HB 556 and proposes that a civil legal aid funding amendment would further the goals of the State. We urge favorable consideration of this amendment.
