**House Bill HB 807 - Consumer Protection - Online and Biometric Data Privacy**

Dear Chairman Wilson,

The League of Life and Health Insurers of Maryland, Inc. (The League) respectfully **opposes** House Bill HB 807 - Consumer Protection - Online and Biometric Data Privacy as introduced.

The League advocates on behalf of our 17 member Life and Health companies before the General Assembly and other relevant State agencies.

The League and our members are committed on working together with all stakeholders on privacy legislation that will ensure sufficient protections for Marylanders while also enabling carriers to provide services to members in the State without any unintended consequences. As Maryland continues to consider this important issue, it is important to consider the unique impacts these changes will have to the Life and Health industries.

For these reasons, the League respectfully urges an unfavorable report as introduced. We look forward to working with the sponsor to move forward on this important issue.

Respectfully submitted,

Matthew Celentano  
The League of Life and Health Insurers of Maryland
