
House Bill 988

Date: 03/07/2023
Committee: Economic Matters
Bill Title: Business Regulation – Professional Power Washers – Registration
Re: Letter of Information

The Maryland Department of Labor oversees the Maryland Home Improvement Commission (MHIC) under the Division of Occupational and Professional Licensing. Last year (2022) a proposal was brought before the MHIC to include Power Washing as a service regulated under the authority of the MHIC. The Commission considered this proposal but ultimately decided that the act of Power Washing could not be considered a home improvement service and thus should not fall under their jurisdiction and regulation.
