

## Cannabis possession Charge Code Expungements

What the state is doing isn't working.

I have been tracking the 10 gram or less charge code over the last year, Maryland Code 1635 for the people I search on the case search. There are still plenty of 1635 charges that should have been expunged. These charge codes are properly categorized on the MJCS. Obviously, the expungement effort was not performed adequately at the most simplest of levels. I would expect that the upcoming expungement process for over 10 grams, Charge code 0573 will be performed in an equally sloppy manner. This is unacceptable. I want to see a better process for cannabis judicial expungements than what we have now.
