

HB1082 FWA

Commercial Law – Protection of Minors from Unfiltered Tablets or Smart 3 Phones

Dear Committee Members:

I support this bill, except that an amendment should be added to include the problem of radiation exposure to children. These mini-microwave devices are on childrens' laps, and against their heads, and they cause brain and other soft-tissue cancers. Please include this in the bill. FDA continues to state that "more studies are needed," but they refuse to look at the plentitude of evidence we already have!
