National AATOD Liaison

Kenneth Stoller, MD
Johns Hopkins Hospital
The Broadway Center
KStolle@jhmi.edu

Immediate Past President

Vickie Walters, LCSW-C
IBR/REACH Health Services
VWalters@ibrinc.org

The Maryland Association for the Treatment of Opioid Dependence (MATOD) represents over 65 healthcare organizations across Maryland that provide and promote high-quality, effective medication assisted treatment for opioid addiction.

August 31st is now recognized as Overdose Awareness Day around the world. Events are held that day in cities and towns all over the world in remembrance of those lost to overdoses. Awareness days are opportunities for families, community groups, employers, schools, and local officials to conduct educational and advocacy events to promote prevention and policies that create greater access to treatment, harm reduction services, and recovery supports.

These events are also intended to reduce the stigma associated with the disease. Overdoses largely occur with the use of opioids and stigma against the use of medication in the treatment of opioid use disorders results in lack of access to opioid agonist therapy, a reduced willingness to receive treatment, and is a significant barrier to recovery.

Overdose Awareness Day sheds light on not only the devastating impacts of substance use disorders to individuals, but also to the burden on society. It also assists in decreasing the stigma related to the use of medications in the treatment of opioid use disorder. For these reasons, we respectfully request a favorable report on Senate Bill 138.
