Written Testimony of

Rico Albacarys, Assistant Business Agent, IBEW LOCAL 24

**Before the Education, Energy, and Environment Committee On
SB 781 Offshore Wind Energy – State Goals and Procurement**

Support

March 6, 2023

Chairman Feldman and Committee Members,

I am writing to express my **support** for **SB 781**. As you are aware, the ongoing climate crisis requires urgent action to transition to clean energy sources. Raising Maryland's offshore wind goals is a critical step in reducing our reliance on fossil fuels and mitigating the impacts of climate change. Moreover, this transition to clean energy will create a significant number of jobs and boost the local economy.

It is important to note the use of Community Benefit Agreements for offshore wind procurement. These agreements ensure that skilled apprentices, particularly those from underrepresented communities, are provided with career training opportunities and fair wages. As a result, community benefits agreements contribute to a more equitable and just transition to clean energy.

Stabilizing the cost of offshore wind energy to ratepayers is essential to ensure that this transition is not burdensome on Maryland residents. By making clean energy affordable, we can encourage its use, reducing our carbon footprint and contributing to a healthier planet.

I ask you to vote **favorably** on **SB 781**, moving Maryland towards an equitable and clean energy future.

Sincerely,

Rico Albacarys

Assistant Business Agent IBEW Local 24
