Community Support Roster for Senate Bill 0491

The Charles County Delegates and Senators have sponsored legislation, SB0491, that would require the Charles County Board of Education (CCBOE) to include representatives who reflect the interests of the bus drivers and attendants, who work for contractors, at negotiations over a master school bus service contract.

If the bill passes drivers and attendants will be required to have a seat at the table when it comes to contract negotiations, which directly affect salaries, time-off, retirement plans, working conditions, etc. Representing Charles County drivers and attendants at the negotiating table will be ATU Local 689 which has been voted in by the parties they will represent.

In order to pass this legislation we need everyone to testify at the bill hearing on why CCPS bus drivers and attendants should have representation at any and all contract negotiations. As well as highlight how the current system of only having the contractors negotiate for us is not working.

Please if you are in favor of Senate Bill 0491, please print and sign your name with your email.
