

Statement of Shari Feirman

Senate Education, Energy and the Environment

Committee

January 24, 2023

Position: FAVORABLE SB 120

My toddler, who will feed into the Montgomery County Public School system when he is older, has multiple life threatening food allergies. I do not currently feel that Montgomery County Public Schools represent a safe environment for him, so I am writing in support of SB 120. The measures proposed in SB 120, which promote greater awareness of and accommodations for children with severe food allergies, are necessary to help avoid terrifying and sometimes tragic anaphylactic reactions. I urge the Senate to vote in favor of this bill.

Sincerely,

Shari Feirman
