

Bill No: SB341
Title: Public Senior Higher Education Institutions - Reproductive Health Services Plans - Requirements
Committee: Education, Energy and Environment
Hearing: February 22, 2023
Position: SUPPORT

The Maryland Legislative Agenda for Women (MLAW) is a statewide coalition of women's groups and individuals formed to provide a non-partisan, independent voice for Maryland women and families. MLAW's purpose is to advocate for legislation affecting women and families. To accomplish this goal, MLAW creates an annual legislative agenda with issues voted on by MLAW members and endorsed by organizations and individuals from all over Maryland. **SB341 - Public Senior Higher Education Institutions - Reproductive Health Services Plans - Requirements** is a priority on the [2023 MLAW Agenda](#) and we urge your support.

SB341 requires public institutions of higher education to develop policies that guarantee students access to emergency contraception and medicated abortion.

Many college campuses have little to no access to essential reproductive healthcare resources. In cases of sexual assault, unprotected or coerced sex, and failed birth control, on campus access to emergency contraception (EC) and medicated abortion is an important way for students to maintain bodily autonomy and prevent unwanted pregnancy in a timely and private manner. Access off campus presents barriers such as limited health center pharmacy hours, transportation challenges, high pharmacy costs, pharmacies not stocking EC on the shelf, enforcing outdated age restrictions, or refusing to sell EC outright.

Under this bill, public 4-year colleges and universities will be required to provide 24-hour access to over-the-counter contraception on campus through student health centers, retail outlets on campus, and/or vending machines, provide **or** refer for a full range of reproductive health services, and prepare and submit an annual reproductive health access plan, in consultation with students, to the Maryland Higher Education Commission.

Further, statistically women of color have lesser access to healthcare resources and are more likely to not finish college due to unplanned pregnancy. Providing reproductive healthcare resources to these women is an incredibly important step in addressing the multifaceted injustices in both poverty and healthcare.

For these reasons, MLAW strongly urges the passage of SB341.

MLAW 2023 Supporting Organizations

The following organizations have signed on in support of our 2023 Legislative Agenda*:
