

HB0515 Public Schools Active Shooter Safety Drills – Requirements

OPPOSE

Dear Committee Members:

The State Dept of Education should not be teaching shooter drills or firearms safety to our children. No doubt this training will be totally biased against the 2nd amendment. And this will further create more soft targets that embolden terrorists to come to “gun-free” zones. Put armed SROs back into schools and armed teachers if they so choose.

Thank you.
