Re: **Support of HB 449 - Calvert County – Sunday Hunting – Repeal of Time Restrictions**

On behalf of our Calvert County Farm Bureau member families, I submit this written testimony in support of HB 449, legislation that removes the 10:30 AM restriction that was placed on the allowing of Sunday hunting in Calvert County. Last year the legislature passed a bill to allow Sunday hunting in Calvert county. However, that bill restricted the Sunday hunting to be only in the morning and until 10:30 AM.

Having counties with different hunting time makes it difficult to know when and where you are allowed to hunt throughout the state. We understand that the counties have the right to set whether they will allow Sunday hunting or not, but the 10:30 AM restriction was not requested by the county nor the private land owners in the county. There should be uniformity in hunting laws so more people will want to hunt without worrying if they are breaking the law from county to county.

MDFB Policy: We support uniform Sunday deer hunting laws throughout the state on private land.

MARYLAND FARM BUREAU SUPPORTS HB 449 & REQUESTS A FAVORABLE REPORT

Re: HB0449 – Calvert County - Sunday Hunting - Repeal of Time Restrictions

Delegate Barve:

This Bill was advertised and presented in open session today, February 7, 2023, where the Board of County Commissioners for Calvert County voted to **SUPPORT HB0449**. This Bill will allow a person to hunt on public land designated for hunting by the Department of Natural Resources on Sunday in Calvert County. There are a multitude of benefits that can be derived from this proposal, including additional recreation activities that have added land management benefits.

Should you have any questions or require further information, please do not hesitate to contact County Administrator Julian M. Willis at 410-535-1600, extension 2202 or County Attorney John Norris at 410-535-1600, extension 2566. Thank you for your kind consideration of our position regarding this important Bill.

Sincerely,

HB 449 - SUPPORT

Calvert County – Sunday Hunting – Repeal of Time Restrictions

Dear Chair Barve, Vice-Chair Stein, and members of the Environment and Transportation Committee,

Maryland bans, or otherwise limits, the sale of automobiles and other vehicles (Business Regulation Code Ann. §18–101), and the sale of alcohol (Alcoholic Beverages Code Ann. §11–102), on Sundays. Financial institutions must be closed on Sunday (Financial Institutions Code Ann. §5–704). Maryland is one of eleven states where hunting is still banned or otherwise restricted on Sunday (Natural Resources Code Ann. §10-410). Counties (and Baltimore) have requested, and usually obtained, a variety of exemptions from some of these Sunday activity restrictions from the General Assembly. Secular Maryland supports these requests to reduce or eliminate Sunday activity restrictions. We disagree with the state level Sunday activity restriction defaults.

Sunday is a special day of the week for many Christians. For other citizens the day of rest and worship may be Friday or Saturday, and for some citizens there is no god to worship or no fixed day of rest each week. Maryland law can be, and should be, more accommodating to this diversity of belief among its citizens. Legally banning business and leisure activity on Sundays favors a majority religious practice. Favoring a majority religious practice is not a proper goal of the laws. To the fullest extent feasible, our laws should confer equal accommodations to minority religious practices along with non-religious and anti-religion beliefs.

The decisions regarding which day to hunt, to buy or sell alcohol, to buy or sell vehicles, to initiate and process financial transactions, etc., are best left to the citizens. State lawmakers can require one day off every week without specifying a particular day of the week by delegating that decision to the affected businesses. Hunting restrictions to accommodate horseback riding, hiking, and the like during the hunting season can be defined for particular hours throughout the week or rotated to different days for each week of the month instead of being on every Sunday.

Respectfully,
Mathew Goldstein

RE: HB449 Calvert County – Sunday Hunting – Repeal of Time Restrictions

Good afternoon, Chair, Vice-chair, and members of the committee:

I present for you today House Bill 449 – Calvert County Sunday Hunting - Repeal of Time Restrictions. This bill alters legislation passed last session by Delegate Jerry Clark on Sunday Hunting restrictions in Calvert County. The current law now allows for hunting on Sundays in Calvert, from 30 minutes before sunrise until 10:30 AM. Now, after a full season of hunting with the time limits, farmers and landowners felt that to be too restrictive. The time limit was not practical, as some game prefers to roam outside of the hours provided.

The bill I bring before you today is simple. It only repeals the time limits for those wishing to hunt on private property, whether that be their own or a friend's property, while keeping restrictions in place for hunters on public lands. This would strike a good balance between private property rights and the safety wishes of those who enjoy our public lands.

It is for that reason I come before you today and ask a favorable report.

Sincerely,

A handwritten signature in blue ink that reads "Todd B. Morgan".

Position: UNF

Excerpts from 15 years of DNR's Annual Hunting Accident Reports

<https://dnr.maryland.gov/nrp/pages/hunting-incident-reports.aspx>

2021

— A 58-year old Washington County Deer Hunter (Firearms Season) was actively hunting in a wooded area when they were struck in the thigh with a round from another firearm. NRP investigation revealed that the victim was shot in the thigh by a 10-year old relative in their hunting party who had mistaken the victim for game. Victim was transported to the hospital for non-life threatening injuries. No charges were filed against the shooter.

2020

--- A Frederick County resident observed damage to the exterior of their residence, which was consistent with that of pellet strikes from a shotgun. While investigating officers located no hunting activity in the area, the incident did occur during the end of spring turkey season. No further suspect / hunter information was developed throughout the investigation.

— A Kent County resident observed damage to their vehicle's windshield, which was consistent with that of pellet strikes from a shotgun. Nearby waterfowl hunters were interviewed and denied any involvement, which was confirmed through an on-scene investigation. The area in question is known for waterfowl hunting and there were reports of numerous shots leading up to the incident. No further suspect / hunter information was developed throughout the investigation.

— A Kent County waterfowl hunter, returning from a hunt, observed damage to their parked vehicle's tailgate, which consisted of a rifle round lodged into the plastic molding of said tailgate. Nearby waterfowl hunters were interviewed and denied any involvement, which was confirmed through an on-scene investigation. The area in question is known for waterfowl hunting. No further suspect / hunter information was developed throughout the investigation.

— A 17 year-old Wicomico County Waterfowl Hunter was underway in a vessel with other hunters when they were struck with shotgun pellets. Investigation revealed that other members of the victim's hunting party were on shore and approximately 50-60 yards away when a 20 year-old fired a shot towards the victim's vessel in an alleged attempt to scare him and his hunting party. The victim sustained non-life threatening injuries. Natural resources / criminal charges were filed against the shooter in this incident.

— A 14 year-old Somerset County Turkey Hunter (Firearms - Junior Hunt Days) was on foot and stalking turkeys with other juvenile hunters and under adult supervision. As the juveniles were walking 50-70 yards apart, under thick tree cover and out of sight from one another, a 14-year old shooter observed a turkey and fired their shotgun twice at said game. As a result, shotgun pellets ultimately struck the victim. The shooter was not aware that the victim was in the background. The victim sustained non-life threatening injuries.

2019

---- A 61-year-old Washington County Woodchuck Hunter was shooting from the front of their residence off a picnic table for support when one shot went errant and struck a person fishing at an adjacent pond, grazing

their shoulder. The victim was approximately two tenths of a mile away obscured by heavy brush and tree cover. Rimfire .22 long rifle ammunition from a rifle was the implement used.

--- An unknown Washington County Deer Hunter (Archery season) shot a crossbow bolt through a Honda SUV while it was parked in the victims driveway. Apparently the shot took place after sunset the evening before the damage was observed. Deer frequent the lawn of this residence and other residences within the neighborhood most evenings. No suspect(s) were observed at the time of the damage.

---- A Montgomery County residence received a broken window caused by a stray bullet fired from a rifle. The projectile was recovered on scene lodged in between two plates of glass. No suspects at the time of the shooting but several shots were reported just before the window received damage.

2018

No relevant reports

2017

--- A 26 year old Talbot County deer hunter (firearms season) shot at two deer with 12 gauge shotgun slugs. The first deer was struck and ran 40 yards before collapsing, the second deer was shot at but the first slug went over its back, the second shot dropped the deer in the location where it was standing. Apparently the slug that missed struck an occupied residence just to one side of the front door. Upon a 911 call a sheriff's department deputy had searched and located the lone hunter. After an investigation by NRP the hunter was charged with negligent hunting and discharging a firearm within the safety zone. Property damage only

--- An unknown Carroll County deer hunter (firearms season) sent a 7mm projectile through the side of a residence, through the bedroom wall, through a wooden dresser, then through a closet wall before coming to rest in a pile of towels in the closet. Two people were in the bedroom at the time but neither was injured. A search of nearby farms was unsuccessful in locating any hunter(s). Property damage only

--- A 52 year old Cecil County deer hunter (late firearms season) took two shots at a deer with a 30/30 rifle toward the direction of a neighboring farm. One of the shots (both of which missed the deer) struck a dining room window of the adjacent residence and stopped, being found on the windowsill. During the investigation it was determined that the round that struck the window had ricocheted off of the ground. The distance from the shooter to the house was 398 yards.

(DNR's on-line annual report for 2017 is identical to DNR'S 2016's report – the 2016 appears to be missing)

2015

--- A 16 year old Allegany County turkey hunter fired two (2) shots from a 12 gauge shotgun at what they believed to be the white head of a spring gobbler. The shot traveled approximately 53 yards and struck a 70 year old camouflaged turkey hunter in the face. This hunter had walked into the woods, sat down and was listening for turkey's completely camouflaged except for the side of his face which is what the shooter was observing and mistook for a turkey. Non-Fatal

2014

--- A 50 year old Carroll County Fox Hunter sent a 6mm rifle round through a patio glass door. The round went through a vinyl garden hose and a plastic lawn chair before going through the door and striking a kitchen chair. The homeowner was the only occupant in the residence at the time and they were in bed sleeping.

--- A 52 year old Kent County Turkey Hunter (Spring Season) took two shots at a gobbler out in an open field. The second shot was at the bird while in flight. One pellet struck the storm door of an adjacent house causing the glass to shatter. The homeowner was present in the home at the time.

2013

--- A 47 year old Calvert County rabbit hunter received a gunshot (shotgun) wound to his body/thigh/head when he was shot by a 15 year old hunting partner. A party of 4 was hunting with the aid of a dog when a rabbit ran between the men who were approximately 40 yards apart. The shooter stated that he could not see the other hunter when he shot at the rabbit

--- A 52 year old Charles County deer hunter shot his 22 year old son with a rifle across an open field. The shooter and the victim had been hunting together and at dusk the shooter fired out at movement in the field which he mistook for a deer. was walking through the field prior to ending the hunt and returning to the vehicles.

--- A 28 year old Charles County deer hunter while hunting within the safety zone ---discharged his shotgun resulting in the rifled slug passing through a window of the residence striking a chandelier in the dining room and becoming embedded in a wall. Thankfully the residence was vacant at the time of the incident.

--- A rifle round was recovered from a Frederick County home during the second day of the extended fire arms deer season. The round went through the wall of the home and struck a sliding glass door causing it to shatter. The round was recovered at the scene by the sheriff's department. The nearest wooded area was over 400 yards away. Property Damage Only

--- A rifle round was recovered from a "second" Frederick County home during the extended firearms deer season. The round entered through the front wall of the residence blew out the drywall in the living room at which time the bullet came to rest on the floor and was recovered by the homeowner. The bullet was a full metal jacket round (illegal to use on big game)

2012

--- A 62 year old Harford County landowner was struck by a random shot on their property. Upon investigation it was determined the landowner had been hearing a volley of shots repeatedly behind her home. As she and her husband went outside to investigate, a piece of shot struck her in the left forearm. Law enforcement responded and never found hunters in the area. The landowners advised no one had permission to be there, therefore trespassers were suspected to be the shooters. No suspects were located nor arrests made. The victim suffered a very minor wound to her forearm. Non Fatal.

--- A home in Dorchester County was struck by a projectile: Upon investigation it was determined the homeowner heard shots and found a French door in the back of their home was shattered due a projectile striking the lower left hand pane. The area behind the home is a public hunting area. No suspects were ever located. It was also never determined hunters caused this situation.

2011

--- A 41 year old Carroll County woman was struck in the right leg by a stray projectile while she was in her back yard. Upon investigation it was determined two individuals were plinking and shooting at squirrels & birds with a .22 cal. rifle in a wooded area behind her residence. Due to an unsafe backstop, it was determined their projectile traveled approximately .26 miles to the victim's property causing the leg injury. Squirrel season was closed at the time of this incident. Charges pending. Non fatal.

--- A 57 year old Dorchester County deer hunter shot his 57 year old hunting companion who he had mistaken for a deer: Upon investigation it was determined the shooter and victim had split up to hunt deer. Both hunters were wearing fluorescent orange when they departed each others company. The shooter had gone approximately 95 yards to his stand, climbed into it and began to hunt deer. The shooter observed a dark movement coming towards his location. The shooter was using a .30-06 scoped rifle. The shooter advised he determined he was shooting at a deer by looking through his scope, and shot at center mass.

--- A 48 year old Caroline County deer hunter shot his 46 year old hunting companion that he had mistaken for a deer: Upon investigation it was determined the shooter heard a disturbance of brush and saw movement, thinking it was a deer. The shooter fired a crossbow bolt at the movement at a distance of 62 yards, striking the victim in his left tibia. The time of the incident was four minutes after legal shooting hours. The shooter was charged with Negligent Hunting. Non Fatal.

--- A 16 year old Dorchester County deer hunter shot his 19 year old hunting companion while shooting at a running deer: Upon investigation 8 hunters had organized a deer drive in a marshy dense wooded area. 5 hunters were pushing deer while 3 were standers. As a deer passed between two standers, the shooter shot at a running deer, striking his hunting companion in both femurs with a .12 ga. shotgun using #4 buckshot at a distance of 60 yards. The shooter advised he never saw the victim. Both hunters were wearing daylight fluorescent orange. Non Fatal.

--- A 56 year old Dorchester County turkey hunter shot his 36 year old hunting companion, mistaking him for game: Upon investigation it was determined the two hunters entered their hunting area and posted three turkey decoys in an open field. They then split up to hunt the area and the shooter advised he did not see which direction the victim went. After a period of time the shooter saw three turkeys to the right of the decoys 40 yards away. The shooter advised he could not see the birds at all times. After an hour he called his companion on a cell phone to ask him if he saw the birds. Immediately after their conversation, the shooter saw a movement then shot. He had shot his hunting companion. The movement he saw was the victim putting his cell phone away. The victim was shot at a distance of 38 yards. The victim received 24 #4 shotgun pellets which were fired from the shooters 12 .ga shotgun. The victim was struck in the right side of his body receiving wounds in his head, neck, shoulder, torso, calf, knee, and ankle. The shooter was charged with Negligent Hunting. Non Fatal.

--- A 13 year old Dorchester County deer hunter, while shooting at a deer, struck a home in the background: Upon investigation the shooter discharged a .45 cal. muzzleloader at a deer 6 minutes after legal shooting hours. The projectile, missing the deer, traveled 242 yards striking a house 48 inches from the ground. As the projectile entered the house, it penetrated exterior and interior walls and lodged in a recliner. A resident in the home was sitting in the chair at the time and received a redmark on their shoulder where the projectile stopped on impact. Non Fatal

2010

--- During the 2010 Firearm Deer Season, residents of a home located in the area of Walkersville (Frederick County), reported their house had been struck by a projectile: Upon investigation it was determined the home had been struck by a projectile doing damage to the exterior & interior walls. Interviews were conducted with seven hunters who were in the vicinity of the area the day before hunting deer as regarding their actions that

day. It was never determined who may have been the shooter, but one scenario did reveal a hunter had fired a .30.30 rifle at a deer pointed in the direction that the home approximately 3,940 feet away. No evidence was found to support charges. Non Fatal.

--- A 45 year old Frederick County deer hunter, while shooting at a deer, struck a home in the background: Upon investigation the shooter had discharged a .12 gauge shotgun using slugs at a herd of deer. The gun jammed, the shooter cleared the gun, turned and shot at another deer in the direction of the home. The shooter advised he had become disoriented as to the direction he was shooting. The slug entered the home at a distance of 114 yards, traveled through the exterior and two interior walls, through two rooms, and into appliances and home furnishings. No one was in the home at the time of the incident. The shooter was charged with Negligent Hunting and Hunting within 150 yards of a dwelling (Safety Zone). Non Fatal.

--- A 53 year old Howard County deer hunter was shot by his 36 year old hunting companion. The shooter shot at a standing deer with a .12 gauge slug in an open field at approximately 243 yards. The bullet missed the deer, striking the victim sitting in a wooden ground blind at the opposite end of the field. The victim received injuries to his right arm and hand. Non Fatal. Charges pending an investigation

--- A 46 year old Queen Anne's County deer hunting was shot by his 25 year old hunting companion. With both subjects participating in a deer drive, the shooter shot at a running deer twice with a .20 gauge shotgun slug. A slug traveled 70 yards, striking the victim positioned at the opposite end of the field in the left leg. Non Fatal. Negligent Hunting charges pending.

--- A 55 year old Dorchester County rabbit hunter was shot by his 55 year old hunting companion. The shooter shot at a running rabbit with a .20 gauge shotgun in a thicket. The shot pellets traveled approximately 30 to 40 feet through the thicket striking the victim. The victim received injuries to the right side of his head, neck, eye, arm and left

--- A Frederick County garage window was struck by a bullet from an unknown source. An investigation could not recover the projectile nor related evidence. This incident occurred during the firearm's deer season.

2009

--- A 57 year-old goose hunter in Kent County was shot by another hunter while attempting to retrieve a wounded goose. The victim received a minor wound to the face from a shotgun pellet which deflected off the water striking the victim.

--- A window was broken at an occupied daycare facility from a slug fired by a shotgun in Howard County. Several hunters were found in the area and interviewed by several police agencies. Negligent hunting charges were filed, but the States Attorney elected not to prosecute due to insufficient evidence.

--- A window in a house was struck and broken by a sabot round fired by a deer hunter in Talbot County. The investigation found that in this case , the hunter was not negligent and charges were not filed.

--- While checking vacant buildings, several Frederick County Sheriff Deputy vehicles were struck by shot gun pellets causing minor damage. Several individuals who were hunting quail in the area were located and charges were filed by the States Attorney's office for Reckless Endangerment.

--- A 69 year-old deer hunter in Dorchester County found himself in the middle of a deer drive on a wildlife refuge. After hearing several shots the hunter realized that his shotgun had been struck on the barrel and magazine by lead shot. The shooter was never found or located.

2008

— A 47 year-old Allegany County deer hunter, walking into the woods without hunter orange, was shot by a 32 year-old hunter. The shooter heard noise, saw movement through the trees and shot the victim without identifying the target. Fatal.

— A 40 year-old Talbot County goose hunter was shot by his hunting partner when the shooter, from outside the blind, shot at a wounded goose. The victim in the blind was in the line of fire. One pellet entered his eye and lodged in his brain. Non-fatal.

— A 64 year-old Garrett County deer hunter was shot in the abdomen by another hunter who mistook the victim for a deer. Shooter was charged with negligent hunting. Non-fatal.

2007

— A 51 year-old Caroline County quail hunter shot his hunting partner when a quail flew between them. The victim received 4 pellets to his upper body.

— A 54 year-old Talbot County deer hunter was shot by his hunting partner when a deer ran between them and the shooter shot at the deer. The shooter hit the deer and shrapnel from the slug hit the victim in the hand causing minor injuries.

— A 59 year-old Queen Anne's County deer hunter was shot by his hunting partner when a deer ran between them. The victim was below field level, climbing a hill out of site of the shooter. He received neck injuries.

— A 38 year-old Garrett County deer hunter was shot in the shoulder by his 16 year-old hunting partner when the victim was moving through bushes and mistaken for game. Victim was not wearing fluorescent orange.

— A 64 year-old Charles County Turkey hunter was shot by his hunting partner when the victim started to retrieve a turkey and was mistaken for another turkey by the shooter. Victim received 4 pellet wounds to various parts of the body.

INCIDENTS -- NOT REPORTED IN DNR ACCIDENT REPORTS (2016 to present)– that were recorded in other news sources:

--- MD: Woman attempting to shoot groundhog accidentally hits man fishing at park

May 28, 2019

The Maryland Natural Resource Police are investigating an incident of a bullet that grazed a man in the shoulder on Sunday afternoon.

According to police, a 61-year-old woman was shooting a groundhog in her backyard, which borders the Smithsburg Lions Community Park.

The woman missed and the bullet ricocheted across the water and struck a 28-year-old man who was fishing.

Officials said there doesn't seem to be any issues with limitation, however the shooter is responsible for anything in background, like in this case, the park....

--- **Fatality** : Maryland Natural Resources police were investigating a fatal hunting accident in Frederick County on Saturday, the opening day of deer season for firearms. Police said the rifle of a first-time hunter from Altadena, Calif., was accidentally discharged while he was deer hunting on private property on Eylers Valley Flint Road near Thurmont. Police identified the victim as Vincent Cavallo, 32.

Cavallo and his uncle were hunting in separate areas of the property when the uncle heard a gunshot. He went to check on his nephew and found him dead, DNR police spokeswoman Candy Thomson said. Police were called to the scene at 9:24 a.m.

Police said the victim is believed to have slipped or dropped the gun and it discharged, hitting him in the head. His body was taken to the medical examiner's office. Natural Resources police were assisted by the Frederick County Sheriff's Department in the investigation.

The mystery is still not solved after an 87-year old man was apparently struck (ed. note: in the head) by a shotgun pellet or bullet fragment while walking on his property in rural Montgomery County Saturday. Authorities suspect a hunting accident, but they don't know who fired the shot or from where. Residents and hunters say they are deeply concerned by the incident. The victim's property is on the boundary of the Patuxent River State Park where hunting with firearms is permitted. Hunters may not fire guns within 150 yards of an occupied dwelling without a residents' permission, even if the hunter is on another property or public land nearby. Maryland averages 2-3 hunting accidents involving firearms annually. The victim is almost always a hunter.

Subject: Hunting Violation in Western Howard County

Hello,

I want to report a hunting violation that I encountered yesterday afternoon between 2 p.m. and 3 p.m. in the Woodbine parcel of the Patuxent State Park.

I was in the park on horseback and one or two people began shooting firearms near the trail head that is immediately north of the farm at 4505 Jennings Chapel Road.

I hollered several times so that they could hear that I was there and stop shooting long enough for me to get out of the park. They were shooting between me and the closest way out of the park so my way was totally blocked.

They did not stop shooting even as I hollered and eventually my very sane and experienced horse bolted to try to get away from the noise, which was echoing everywhere.

Luckily I am a strong rider and I did not have a mishap but my horse was badly frightened, as was I, frankly. It was mainly luck that we did not run into a tree or barbed wire or worse.

Once I finally got to the trail head – after picking my way along as close to the edge of the park as I possibly could on the theory they would not fire towards residences – I saw their vehicles and got their license plates. They were both Maryland vehicles, one was 5CC8856 and the other was 5C74853.

I have attached photographs of the vehicles. I also have a photograph of my riding attire yesterday, which included a safety orange saddle pad and a reflective yellow jacket, which I can provide if necessary.

I have been riding in this part of the park for over 15 years and every time I have encountered hunters we have been courteous to one another and respectful of each other's sport and mindful of each other's safety. These people were obviously an exception.

I am happy to discuss further by telephone if necessary.

Testimony of the Maryland Horse Council on HB 449

Calvert County – Sunday Hunting – Repeal of Time Restrictions - UNFAVORABLE

-
- ❖ **A majority of Marylanders oppose Sunday hunting.** An independent statewide poll conducted by Gonzales Research and Media Services in 2018 found that 68.9% of respondents oppose Sunday hunting. Even DNR’s own 2018 commissioned survey found that a majority of the general population does not favor Sunday hunting and does not want to see it expanded.¹
 - ❖ **This bill would allow all day Sunday hunting in Calvert County for many months of the year.**
 - ❖ **This bill upends a compromise solution that many hoped would bring this issue, which has consumed much of this Committee’s time for many years, to a final closure that gave everyone a little bit of what they wanted. It seeks to strip recreational users of their only right to quiet and safe enjoyment of the outdoors on one - partial - day of the week.**
 - ❖ **This bill would infringe on the rights of the general public to enjoy outdoor recreation, the importance of which has received increased attention, including the new Office of Outdoor Recreation in DNR, and the passage last year of the Great Maryland Outdoors Act. 78% of the Gonzales poll respondents said they would decide to alter their recreational plans to avoid hunters. In a Maryland Horse Council 2016 poll, 85% of respondents said they changed their schedules or riding locations to avoid encountering hunters. The majority of Maryland’s equestrians are trail riders.**
 - ❖ **Since the advent of the pandemic, widespread use of outdoor recreation and natural resources by the general public has only increased.** For example, attendance at

¹ https://dnr.maryland.gov/wildlife/Documents/2018_DeerPublicOpinionSurvey.pdf

Maryland State Parks in 2020 increased 45% over 2019, which was also a record year.² Demand has remained strong. **Many of these new users are unfamiliar with the rules of hunting and hunting seasons, including the distinctions between public and private lands. Now is not the time to increase general public exposure to possible hunting risks or to further deter the public from outdoor recreation. We have separately submitted with this testimony a report of hunting incidents from 2007 - 2021, compiled from DNR's own data.**

- ❖ **The Maryland horse industry represents \$2.1 billion in economic impact; 28,000 jobs; \$1 billion in annual spending by participants; \$78 million in tax revenue. There are over 100,000 horses in Maryland (more per square mile than any state in the Union), and 51.8% of Maryland households contain horse enthusiasts.³ There are horses in every county in the state.⁴ The majority of Maryland riders are trail riders.⁵**

The Maryland Horse Council (MHC) is a membership-based, umbrella trade association of the entire horse industry in Maryland. Our membership includes breed, interest and discipline associations, plus horse farms and stables, horse-related businesses, and horse owners representing all facets of the Maryland equestrian community, from the owners of race horses and race tracks, to the owners of international level competition horses, local sport horses, trail horses or just beloved retired companion horses. The owner of Pimlico, Laurel and Rosecroft racetracks is a member, as are vets, tack stores, and other farms, businesses and enthusiasts throughout the state. Every Maryland county, without exception, is home to hundreds to thousands of horses. (See footnote 4) There are more horse per square mile in Maryland than in any state in the Union. (See attached fact sheet.)

The horse industry in Maryland is a large, engaged and thriving constituency, and a strong economic engine: 28,000 direct equine related jobs; 16,000 properties occupying over 705,000 acres (almost 10% of Maryland's total land area, and over 25% of Maryland's agricultural land) The industry represents \$2.1 billion in annual economic impact, generating \$78 million in annual tax revenue. Horse industry participants spend \$1 billion dollars annually (compare that to the \$260 million annual figure for hunters cited in Fiscal and Policy Notes for previous Sunday hunting bills). Thus, legislative actions that affect the equine industry have a broad economic effect.

POSITION

The Horse Council opposes HB 449.

BACKGROUND

For over 20 years, the Maryland Horse Council has worked to ensure fair use of shared natural resources during hunting season, by seeking to preserve Sundays as the one day of the week when children and adults who are hikers, birdwatchers, dog walkers, trail riders and other outdoor enthusiasts could enjoy the outdoors without concern for adverse interactions with hunters. Almost 20 years ago, we helped defeat a number of statewide Sunday hunting bills. Proponents of Sunday hunting then changed tactics, seeking to introduce Sunday hunting on a county-by-county basis, which we also opposed vigorously. Sometimes they were successful; sometimes not. When they were successful, they succeeded in making an already complicated situation more complicated, making it more difficult for others to plan their outings, and for Natural Resources Police to effectively crack down on poachers and irresponsible hunters, which has caused even more negative encounters between irresponsible hunters and other users.⁶

Beginning in 2016, MHC proposed reasonable compromises that would still allow fair use of shared natural resources, by cutting off Sunday hunting, where allowed, at 10:30 am. This compromise still gives hunters, trail riders and others plenty of Sunday access to opportunities. This compromise was embraced by some legislators, who have praised the Horse Council for this reasonable approach. In recent years, it was adopted by Montgomery, Kent and Wicomico Counties.

Last year, bills were introduced that would have allowed all-day Sunday hunting for all species in all seasons (thus for many months out of the year) in Calvert, Charles, Caroline, Queen Anne's and Somerset Counties, as well as Talbot County for deer hunting from the first Sunday in October through the second Sunday in January, plus all five Sundays of the Spring (April-May) turkey season. Just two legislative days before the end of the session, the bills were amended, passed and sent to the Governor. The amendments essentially preserved any full day Sundays that each county already had, and required that any additional Sunday hunting must end at 10:30 am, except that Calvert, Caroline, Charles and Queen Anne's also were permitted to add full Sundays during the Spring turkey season. There were a few additional tweaks: in a last minute floor amendment, Dorchester County was added to the Queen Anne's and Caroline bill on the same terms. The Talbot County bill was amended to allow hunting until 10:30 on all Sundays in each of the deer seasons, except for two full Sundays in the firearms season and five full Sundays in the bow season (which they already had). Talbot had requested full day Sundays in the Spring turkey season, but got them only until 10:30. With these amendments, Senator Pinsky and the Committee sent a strong signal that this issue should be put to bed, with a compromise that gave everyone a little bit of what they wanted.

This bill attempts to roll back that compromise, and to strip recreational users of their only right to quiet and safe enjoyment of the outdoors on one - partial - day of the week. The bill would allow all day Sunday hunting in Calvert County for all species of game birds and game mammals. According to the Maryland hunting season calendar, https://dnr.maryland.gov/huntersguide/Documents/Hunting_Seasons_Calendar.pdf, there is an open season for at least one species for many months of the year. This bill does nothing to improve the situation for

⁶ In a 2016 Maryland Horse Council survey, 35% of respondents reported "adverse incidents" with hunters while trail riding, ranging from rudeness to deliberate attempts to spook horses, threatening with firearms, and firing of "warning" shots. Significant percentages of DNR's survey respondents also reported problems when encountering hunters.

Natural Resources Police and continues to infringe on the fair rights of other users of our shared natural resources in Maryland.

The issue of recreational Sunday hunting is certainly a fraught one. In a November 2018 independent Gonzales statewide poll, the vast majority of respondents opposed Sunday hunting:

SUNDAY HUNTING Oppose 68.9%; Favor 21.9%

Breakdown:

Strongly Favor 13.5%

Somewhat Favor 8.4%

Somewhat Oppose 15.4%

Strongly Oppose 53.5%

These majorities opposed to Sunday hunting are true in Baltimore Metro, Washington Metro AND Rural areas. Rural Maryland opposed Sunday hunting 60.5% vs 34.1% in favor. Even DNR's own commissioned survey found that a majority of the general population does not favor Sunday hunting and does not want to see it expanded. (See footnote 1.) This bill directly contravenes that clear public opinion.

It is important to make clear that MHC is not opposed to hunting. Many of our members are hunters of deer, other game mammals and game birds. We just want to ensure that everyone has a safe option for enjoyment of the outdoors. The COVID pandemic has dramatically increased the level of outdoor activity and use of natural resources. According to DNR, 2020 State Park attendance increased by 45% to 21.5 million visitors. Demand has remained strong. In 2021, **Lt. Governor Rutherford stated: "With the ongoing COVID-19 pandemic changing the way we live, work, and play, more and more Marylanders are finding affordable, socially-distant, and family-friendly recreation opportunities at our parks and public lands,"** (See footnote 2.) Many of these new users are unfamiliar with the rules of hunting and hunting seasons, and are unaware that they may encounter hunters in the woods. Now is not the time to roll the dice and increase the chances of potential adverse interactions between hunters and members of the public who are relatively new to the outdoors..

It is also sometimes argued that recreational hunters need Sundays because they have other things to do on Saturdays - a situation that plainly applies to most of Maryland's families who use outdoor resources, be they hunters, birdwatchers, dog walkers, mountain bikers, off-road vehicle enthusiasts and trail riders. So why should one group get special consideration? Where is the balancing of the public good, the equitable access? The number of licensed hunters in Maryland, about 100,000, is less than 2% of the state's population of about 6 million. The number of licensed resident hunters is reportedly ninth lowest among all the states.⁷ Compare that with the 24% who reported (pre-pandemic) making frequent or occasional trips specifically to view and experience wildlife in their native habitat for photography or other non-hunting purposes. (See footnote 1.) In MHC's statewide survey on Sunday hunting, 68% of respondents ride on trails on public or private land one or more days a week. And, perhaps most significantly, 85% said they changed their schedules or riding locations to avoid encountering hunters.

⁷ <https://www.msn.com/en-us/news/us/maryland-is-the-9-state-with-the-fewest-registered-hunters/ar-AAPKtT8>

We of course recognize that private land owners have some right to decide what uses they want to allow on their land. But such rights have never been absolute, as any review of zoning and land use rules can plainly establish. And, as a practical matter the public/private land distinction affords little relief since public and private tracts are often relatively small, non-contiguous, intertwined and rarely well-marked. In our survey, referenced above, 56% of respondents said they ride on trails that cross both public and private land.

CONCLUSION

We urge the Committee to give HB 449 an unfavorable report.

Respectfully submitted,

THE MARYLAND HORSE COUNCIL
(844) MDHORSE (844-634-6773)

The Maryland Horse Industry

Why Does It Matter?

51% of Maryland households contain at least one horse enthusiast
Maryland has 10.5 horses per square mile, more than any other state

1. Economic Impact

\$2.1 billion annual economic impact

\$80 million spent on hay, feed, and straw
\$78 million in tax revenue

2. Open Space

Over 25% of agricultural land in horse use
88,000 acres in permanent preservation
Land conserved with private dollars

3. Tourism

Four international competition venues
\$___ generated in Prince George's County
Three internationally televised events

4. Health and Wellness

40 therapeutic riding programs
10,000 children served by educational programs
\$8.4 million economic impact

5. Jobs

>28,000 industry jobs
200 equine organizations
16,000 horse farms and stables

Position: UNF

Hills Bridge Beagles

Testimony HB 449 – Calvert County Sunday Hunting

House Committee on the Environment and Transportation

Position: OPPOSE

Good afternoon Chairman Barve, Vice-Chair Stein and Honorable Committee Members

My name is Margaret Addis Crane. I am a farm owner in Calvert County and the Joint Master of the Hills Bridge Beagles, a beagling foot pack that hunts in Calvert County and Charles County. The Hills Bridge Beagles (HBB) are recognized foot pack by the National Beagle Club, the AKC parent club of Beagle breed. Beagling is a chasing sport not a killing sport. The HBB season is September through March because rabbits begin having their young and because of the risks to hounds and followers that copperhead snakes and ticks present.

The pack was formed more than 40 years ago. The pack has between 60-80 followers that come out one or more times in any given season. Our followers range from the very young to the young at heart. Beagling gives people who might not otherwise have the opportunity, a chance to get out in the countryside to enjoy all the beauty Southern Maryland has to offer.

As a threshold matter, I completely support gun hunting in Maryland, and specifically in Calvert County. I allow hunters to hunt my farm. The issue I have with HB 449 is this bill will remove the time restrictions which were a negotiated compromise to allow non-shooters to enjoy Maryland's natural resources on Sundays. If HB 449 is passed, the effect will be Calvert County's natural resources will be completely dedicated to the deer hunters. What does this mean for the HBB and its many followers? What it means is the HBB can either stay out of the woods all together, effectively denying our members an opportunity to get in the woods, or the HBB can run the risk of running into deer hunters who are empowered to believe they control the woods.

As you are well aware, last year Sunday deer hunting was expanded from seven (7) Sundays to twenty-one(21) Sundays each season. The HBB do everything they can to respect and not interfere with the deer hunters and what this generally means is we go out on Sundays. If the time restriction on Sundays is removed, then there will be no way the HBB can avoid the deer hunters because the HBB are limited to private lands in Calvert County. Unfortunately, my experience with deer hunters in Southern Maryland is they do not want to share the resource.

As a result, the HBB and its followers have been subjected to threats and harassment by deer hunters because the deer hunters do not want anybody to “disturb” the deer.

The HBB is not anti-gun or anti-hunting by any means. What the HBB are advocating for is a “*share the resource*” approach. Unfortunately, because my experience has been that deer hunters are not interested in sharing the resource and that’s why they’ve come back one short year later to undo the compromise they agreed to last year. I’d just ask that you consider a *sharing the resource approach* and oppose HB 449.

If you’re interested in learning more about Beagling you can see the HBB on Outdoors Maryland by using the following link <https://americanarchive.org/catalog/cpb-aacip-394-23hx3m9f>. This video won an Emmy and was voted Maryland’s Favorite dog video. I would note that the HBB can no longer hunt on the farm shown in the Outdoors Maryland video. The farm, which is Anne Arundel County, was purchased by DNR, and the farm is now limited solely to deer hunting. The Beagles cannot use that farm even one time a year, which is a sad commentary on resource management.

Thank you for the opportunity to provide testimony before this committee.

Margaret Crane
