Senate Bill 866

Special Vehicle Registration Plates - Chesapeake Bay Trust and Maryland Agricultural Education Foundation - Appropriation

Date: March 30, 2023	Position: Favorable
To: Environment & Transportation Committee Appropriations Committee	From: Matt Stegman, MD Staff Attorney

Chesapeake Bay Foundation (CBF) **SUPPORTS** SB 866 which would require the Governor to make an annual appropriation to the Chesapeake Bay Trust (CBT) and Maryland Agricultural Education Foundation (MAEF) in the event revenue for these programs is reduced because of the introduction of additional commemorative vehicle license plates. Ensuring revenues for both organizations remain stable ensures they can continue their missions to engage Marylanders in the protection and enhancement of our environmental and agricultural resources.

Both the Trust and MAEF were established via government initiative. Neither were designed on a general fund appropriation model; rather, their important missions have been supported by private revenues generated by commemorative vehicle license plates (the “bay plate” and the “ag tag”). These two plates have been the only two commemorative plates in Maryland for 23 years, which has kept their revenues stable. Without legislative action, as more background scene plates become available, revenues generated by existing plates will decline imperiling the great work done by both organizations.

CBF urges the Committee’s FAVORABLE report on SB 866.
