

## **Testimony in opposition of House Bill HB0874 - William Zwart.**

Good afternoon, Honorable Chair and members of the committee,

The police and sheriffs are responsible for enforcing the laws. The more enforcement agencies you have, the more the system becomes cluttered and confused, and in the end, the laws don't get enforced because there's too much chaos.

The Attorney General does not have the right to his or her own enforcement agency. Such things lean more towards a fascistic government than a democratic one.

For this reason, I urge you to vote against HB0874.

Thank you for your time.
