

Testimony for HB0208 (street car racing)

Hello! I am Barbara Sollner-Webb, a 50-year resident of Prince George's County and President ex officio of the West Laurel Civic Association. Speaking for myself and my husband, indeed for the vast majority of the 1800 residences in our civic association (very many of whom have spoke out in anguish about excessively loud hot rod-style road racing and its accompanying danger and noise), we strongly support HB0208 and urge its unanimous passage. When we want to enjoy the tranquility of our houses in our nice neighborhood, it seems unfair to be subjected to hellishly loud street noise being generated solely to satisfy some small people's egos.
