Re: SB 281 – Commission on Public Health - Establishment – Letter of Support

Dear Chair Griffith and Committee Members,

The Maryland Health Care Commission (MHCC) is submitting this letter of support for *HB 214 - Commission on Public Health – Establishment*. The bill would create a Commission on Public Health to make recommendations to improve the delivery of foundational public health services in the State.

The bill requires the Commission, by October 1, 2024, to conduct an assessment of the capability of the Maryland Department of Health and local health departments to provide foundational public health services and requiring an assessment to consider the State's response to COVID-19, overdose deaths, and to racial and ethnic disparities in maternal mortality and birth outcomes in the State.

We agree that it is to everyone's benefit to make sure there is a strong robust public health infrastructure in the State. A strong public health infrastructure includes a capable and qualified workforce, up-to-date data and information systems, and agencies that can assess and respond to public health needs, such as those to prevent suicide, obesity, maternal and child health, and environmental health threats. The proposed work of the Commission aligns with many of the areas of focus for the MHCC.

We understand the House Health and Government Operations (HGO) Committee has adopted amendments to HB 214 and as amended the MHCC will be in a consultant role. While in SB 281 we are a member of the Commission, we look forward to being an active participant in whatever role the legislature wishes us to play.

If you would like to discuss this legislation or our existing efforts, please contact Ben Steffen, Executive Director, Maryland Health Care Commission at ben.steffen@maryland.gov or Tracey DeShields, Director of Policy Development and External Affairs at tracey.deshields2@maryland.gov.

Sincerely,

Ben Steffen,
Executive Director
