

As a voting resident in Maryland, I oppose the creation of a state constitutional right to and I defend the God-given right to life that should be guaranteed by the Maryland constitution. The unalienable right to life belongs to unborn children who reside in their mothers' wombs. Abortion hurts families, including children, mothers and fathers, and destroys unborn babies' human rights. If this passes, you are allowing the killing of future Maryland citizens. Why not support the hard-working families in this state by protecting these lives?
