Maryland Senate
Finance Committee

Ref: SB628- School-Based Health Center- Service, Infrastructure, and Funding

Dear Finance Committee,

I am asking you to vote UNFAVORABLE for SB628. This bill is unnecessary. The health center does not have the medical history of the children. So, how can they determine that children should have certain medications and or vaccines? What say do parents have once the kids are in the schools health center? School need to focus on reading, writing and arithmetic.

Please vote UNFAVORABLE for SB628.

Sincerely,

Theresa Myers
