

LEGISLATIVE POSITION:

Unfavorable

Senate Bill 915

Railroad Company – Movement of Freight – Required Crew

Senate Finance Committee

Tuesday, March 21, 2023

Dear Chairwoman Griffith and Members of the Committee:

Founded in 1968, the Maryland Chamber of Commerce is the leading voice for business in Maryland. We are a statewide coalition of more than 6,400 members and federated partners, and we work to develop and promote strong public policy that ensures sustained economic recovery and growth for Maryland businesses, employees, and families.

Senate Bill 915 would require a train or light engine that is used to transport freight via railroad to have at least two crewmembers while operating in the State.

Maryland's freight rail industry is one of its most critical - helping to minimize transportation costs, manage our carbon emissions levels and strengthen our competitiveness. Our rail industry is responsible for thousands of direct jobs and contributes to hundreds of thousands of indirect jobs. With this bill, railroad companies will be forced to comply with onerous regulations which mandate freight trains stop at the Maryland border, add a crewmember, and drop them off once they leave the State. This complicates what should be an easy flow of freight, especially when this industry is responsible for a significant portion of the movement of goods and services in the State.

We learn from the history of the United States railroad system that onerous regulations have significant negative impact on the industry. In order to mitigate the heavy regulatory climate that led to multiple railroad bankruptcies in the 1970s, Congress passed a series of laws meant to ease the burden on railroads and create uniformity in laws between states. These laws established federal preemption provisions because of the difficulty placed on railroads having to conform to different regulations and policies traveling from one State to another.

The Maryland Department of Transportation projects that freight rail demands will increase by 45% by 2040. To keep up with these demands and ensure the easy movement of goods into, out of, and through the State of Maryland, it is in the best interest of the State to support legislation that facilitates, not hinders, this movement. Private companies, the State and the Federal government have all made significant investments in freight rail, knowing that it creates jobs, expands the economy, and increases Maryland's competitive edge.

In addition, there have been two important developments since the last time the Committee was presented with this legislation, both of which establish that state laws regarding crew size are

preempted by federal law. In May 2019, the Federal Railroad Administration determined that there is no data showing that two-person crews are safer than one-person crews and concluded that regulation of minimum train crew is not justified. At that time, the FRA indicated its intent to preempt all state laws and regulations on that topic. More recently, in September 2020, the U.S. District Court for the Northern District of Illinois held that an Illinois state crew size law, similar to the bill before you, was preempted by the Federal Railroad Safety Act (FRSA).

Finally, this proposed policy was vetoed in 2019 and upheld by the members of the Maryland General Assembly in 2020.

For these reasons, the Maryland Chamber of Commerce respectfully requests an **Unfavorable Report** on **Senate Bill 915**.
