**RE: HB 1060 – Cremation - Natural Organic Reduction  
Regulation: Support - Favorable with Amendments**

---

Dear Chair Griffith:

I write to you to urge your favorable report on HB 1060 – Cremation – Natural Organic Reduction. As a resident of Montgomery County, I am increasingly concerned with the rising cremation rate in Maryland, which both uses fossil fuels and releases carbon dioxide into our atmosphere. It is time to make greener funeral choices available. Natural Organic Reduction is a safe alternative with years of research behind it. I work hard to live sustainably, and I believe I should have the choice to die sustainably too.

Please vote YES on HB 1060.

Thank you,
