RE: MBIA Letter of Support HB 1111 Baltimore County - Insurance - Certificates of Guarantee for County Bond Requirements

Dear Chairwoman Griffith:

The Maryland Building Industry Association, representing 100,000 employees statewide, appreciates the opportunity to participate in the discussion surrounding **HB 1111 Baltimore County - Insurance - Certificates of Guarantee for County Bond Requirements**. MBIA **Supports** the Act in its current version.

This bill would authorize Baltimore County to honor Certificates of Guarantee in addition to traditional bonds. MBIA strongly supports this measure. Certificates of Guarantee have several advantages over traditional bonds. First, they are cheaper allowing the cost savings to be passed onto consumers and allowing more people access to housing. Second it provides a guarantee of completion including grading, paving, driveways, storm drains, sediment control and stormwater management all organized by industry professionals. This has the advantage of having experts available to provide labor and advice in the event of a difficulty arising during the project. This means that when difficulties arise they are likely to get corrected much more quickly and efficiently. This program currently offers certificates of guaranty to Prince George's County, Howard County, Montgomery County, The City of Gaithersburg, the Town of Poolsville, State Highway, WSSC and MNCPPC with excellent results. Developers in Baltimore County should be allowed to take advantage of this wonderful tool.

For these reasons, MBIA respectfully requests the Committee give this measure a favorable report. Thank you for your consideration.
